

KOT-0085

REMARKS

Claims 1-35 and 43-51 were pending in the application as a result of the amendment filed on February 15, 2006. Of these Claim 15 has been amended.

Claim 15 was amended to include the feature of "a substituted or unsubstituted aryl group" from the substituents represented by R_{h5} and R_{h6} of Formula H4. This feature had been mistakenly deleted by the amendment dated February 15, 2006. Support can be found at least in the originally filed claims. It is believed that the amendment made herein may be properly entered at this time, i.e., after final rejection, because the amendment does not require a new search or raise new issues and reduce issues for appeal.

Thoms fails to disclose a compound defined by Formula H4, wherein at least one of R_{h5} and R_{h6} is $-\{C(R_{01})(R_{02})\}_pCF_3$. For at least this reason, Claim 15 is patentably distinguished from Thoms.

It is believed that the foregoing amendments and remarks fully comply with the Office Action and that the claims herein should now be allowable to Applicants. Accordingly, reconsideration and allowance are requested.
